Answer BOTH of the following questions.

Question 1

Briefly explain what each of the two views states about the mental and its relation to the physical, then compare and contrast the two views in light of problems the views face/overcome, arguing in favour of one of the views over the other. (100 marks)

Question 2
Explain the Epistemic Argument against Physicalism (using one of either the Knowledge, Explanatory Gap, or Conceivability arguments in support), and explain which view, in light of the argument, you think is ultimately most correct. (100 marks)
